PLUS / SELECT

REDEFINING SUNSHINE

YOUR INDIVIDUAL SUN!

As the world's first solarium to utilize only LED technology, the K11 Air redefines industry standards. Its cutting-edge design blends sleek, modern aesthetics with smart functionality—making it a standout unit in any studio. Experience a completely new tanning sensation: powerful, even, and gentle on the skin.

Thanks to the high-performance, energy-efficient LEDs and the ability to control each spectrum separately, the K11 Air not only delivers exceptional results but is also constantly evolving – for tanning and relaxation at the cutting edge of technology.

FULL BODY LED-TECHNOLOGY

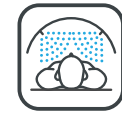

10" SmartControl: For a relaxed tanning experience, all tanning settings can be adjusted. Easy access to maintenance and service settings for operators.

3D SoundSystem: Brings a spatial sound with crystal-clear highs, powerful mids, and rich bass into the tanning tunnel.

(Comfort) AirCondition: Two high-performance air conditioners are available as options. Each guaranteeing a pleasant cooling sensation during the tanning session.

AquaCool: Refreshing and revitalizing Aqua-Cool-mist from two special, drip-free jets strategically placed in the body fan.

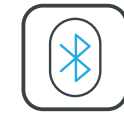

AirBreeze Acrylic: To cool the lying surface from underneath, the K11 Air also utilizes the proven AirBreeze technology.

AirBreeze Body: A controlled airflow is evenly distributed across the entire body from the foot area upward. The intensity can be precisely adjusted independently of the AirBreeze Face.

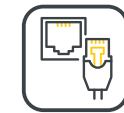

AirBreeze Face: In the area of the décolleté and face, the airflow can be directed in any direction thanks to adjustable air nozzles.

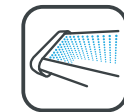

Bluetooth: Simply connect the smartphone with the solarium via Bluetooth. And listen to a personal playlist while tanning.

DekoLight: Additional nano LEDs illuminate the interior and complement the decorative lighting of the Infinity Mirror, creating a pleasant atmosphere.

Ethernet: The Ethernet connection provides networking capability that can support not only software updates but also remote diagnostics and additional features in the future.

Infinity Mirror: One of the highlights of the K-Series is the Infinity Mirror. Light effects create a sense of depth that seems to extend to infinity. A magical illusion that never fails to fascinate from any angle.

KBL 8: The heart of the K-Series is the completely new electronics. It has been entirely redeveloped and sets a totally new standard for future-oriented technology.

Full Body LED-Technology: With SunFinity technology, you can precisely control the dosage of UV- and Lightspectra. Pure LED-technology opens up new, innovative pathways.

LightCare: With two UV-free programs, there is the option to either care for the body (Beauty Light) or recharge with energy (Energizing Light).

Quiet Tanning: Thanks to the new LED technology, it is possible to operate with significantly lower fan speeds. Consequently, the K11 Air is considerably quieter than standard solariums.

Select: Four sunburn-free UV programs to build a basetan, produce vitamin D or for a gentle and risk-free tanning combined with the LightCare option, two red light programs, the K11 Air creates the "Select" function.

SunControl: Choose from 9 dream destinations the intensity that suits you best, and refine the spectrum by adjusting the time of day—for a personalized short vacation.

SunSense: The intelligent sensor measures the current UV tolerance and optimally adjusts the tanning bed to the customer. The analysis of the skin condition ensures protection against sunburn without compromising the tanning results.

Video Player: Tutorials guide your customers into a short break and you have the option to import customized videos with advertising messages.

VoiceAssist: A pleasant voice guides quickly and easily through the solarium's operating functions. Wellbeing is guaranteed right until it's time to say goodbye.

Wireless Charging: Simple, cableless charging of all suitable smartphones during tanning sessions.

WebRadio: Additionally select the option in the music menu to listen to online radio stations during tanning.

WLAN: Through the Wi-Fi connection, there is networking capability that can support not only software updates but also remote diagnostics and additional features in the future.

Connectivity+: Your devices at a glance: Connect, monitor, and control your entire KBL device fleet conveniently from anywhere.
