JULY 2026

LET YOUR LIGHT *SHINE*

REDLIGHT & INFRARED

With megaSun's red light and infrared devices, wellness takes on a new dimension. The premium portfolio ranges from the innovative R11 Air to lie-down and stand-up units with LED tubes, as well as beauty solutions featuring classic low-pressure lamps. The diverse designs of megaSun devices combine relaxing treatments with a distinctive visual appeal. Timeless styling, high-quality craftsmanship and a dynamic presence make them

an eye-catcher in any studio. They create a place of warmth, relaxation and wellbeing — perfect for short moments of escape with a lasting effect. The experience is completed by carefully selected comfort features that make every session even more enjoyable and allow everyday life to fade into the background for a while.

10" SmartControl: All settings can be configured in advance for a seamless and relaxing experience. Convenient access to service and maintenance functions simplifies operation and support.

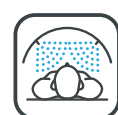

3D Soundsystem: Immersive sound fills the unit tunnel with crystal-clear highs, powerful mids and deep, rich bass.

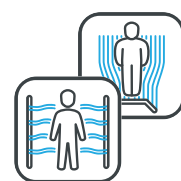

AirCondition: Pleasant cooling comfort throughout the entire session.

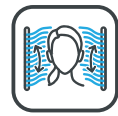

Aroma: Selected fragrances enhance the atmosphere, creating an even more enjoyable wellness experience.

AquaCool: Revitalising AquaCool mist delivers an instant sensation of freshness and well-being.

AirBreeze Body: A smooth and evenly distributed airflow gently surrounds the entire body. The intensity can be adjusted independently and with precision for personalised comfort.

AirBreeze Face: Adjustable air nozzles allow the airflow around the face and décolleté to be directed precisely where it is needed.

Bluetooth: Seamless Bluetooth connectivity makes it easy to enjoy personal playlists throughout the session.

BodyFan: Refreshing ventilation transforms every session into a truly relaxing experience.

ColorMotion: LED technology meets emotion. The preferred colour ambience can be selected effortlessly via touch remote control.

Connectivity+: All devices equipped with KBL8 at a glance. Convenient networking, monitoring and remote management of the entire KBL device fleet.

DekoLight: Additional Nano LEDs illuminate the interior, complementing the Infinity Mirror lighting concept and creating an inviting atmosphere.

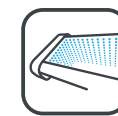

Easy Control: Intuitive control of all essential functions throughout the session. Clearly structured, user-friendly and designed for maximum convenience.

Ethernet: The integrated Ethernet interface enables seamless connectivity and software updates, while providing the foundation for future digital services such as remote diagnostics and extended functionality.

Headlight: Integrated exclusively into the head section of the R11 Air, the Headlight completes the red light experience and creates an atmosphere of pure relaxation.

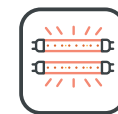

Infinity Mirror: A distinctive highlight of K-Series is the Infinity Mirror. Sophisticated lighting effects create a remarkable sense of depth, extending seemingly into infinity.

KBL8: The entirely redesigned electronic platform is built on current standards and engineered for the technologies of tomorrow.

Full Body LED-Technologie: Advanced LED technology enables precise control of wavelength delivery across the entire body.

LED-Tubes: Innovative LED Tubes feature a complete LED configuration, combining three wavelengths within each tube for a balanced and comprehensive experience from head to toe.

Matrix LightShow: Specially developed LEDs create exceptional lighting animations with dynamic colours and captivating visual effects.

Video Player: Informative videos provide the perfect introduction to a relaxing escape. Customised video content and promotional messages can also be integrated.

VoiceAssist: A pleasant voice guidance system provides intuitive navigation through all device functions, ensuring a seamless and comfortable experience.

vibraNano: Side-alternating vibration plate featuring an elegant, reflection-free surface.

Wireless Charging: Compatible smartphones can be charged wirelessly throughout the session for added convenience.

WebRadio: An additional option within the audio menu provides access to online radio stations during the session.

WLAN: Integrated WiFi connectivity enables seamless networking and software updates, while providing the foundation for future digital services such as remote diagnostics and extended functionality.
