„Design is not just what it looks like and feels like. Design is how it works.“ – Steve Jobs

With the design of the T9 tower, Etienne Salomé sets another striking visual highlight. The unmistakable design of the K-Series can now also be found in our tower. The eye-catching Infinity Mirror makes the T9 an absolute showstopper! But the tower impresses with more than just its bold aesthetics:

A true space-saving wonder, fitting perfectly into any cabin.

Thanks to the new KBL8 software, they are not only future-proof but also sustainable. With the new ventilation concept and the proven Vibra-Nano function, the T9 offers real comfort while enabling joint-friendly training. Proven performance meets future proof technology and an outstanding design.

The T9 – a new benchmark in the tanning industry.
