# IT ALL STARTS WITH A DREAM

Solarium design in the footsteps of the iconic Porsche 911.

Impressive technology and breathtaking design in perfect symbiosis. People all over the world are fascinated by the myth that is Porsche. Therefore, it was our dream to collaborate with Studio F. A. Porsche on an ambitious project of a new solarium design. To bring form and functionality together in perfect harmony. This dream has now come true:

With the P9 series, KBL presents a world first in close collaboration with Studio F. A. Porsche that sets new design standards for solariums. The P9 combines an elegant form with outstanding technical performance. Innovation that captivates customers. And at the same time, an homage to what energises and inspires us all: the sun.

# Design must be honest!

These four words spoken by Prof. Ferdinand Alexander Porsche get to the heart of his philosophy in which design is not simply decoration or superficial beautification, but rather the perfect symbiosis of form and function. This can only be achieved once the functionality of a product is fully captured.

When the studio was founded in 1972 in Zell am See, F. A. Porsche had already delivered the evidence of this philosophy: the design for the Porsche 911. An unembellished, timeless design that embodies the technical essence of the sports car like a perfectly tailored suit.

A passionate expression of motion – even when still. The fascination for puristic design still motivates Studio F. A. Porsche today. It permeates all the areas for which Studio F. A. Porsche designs objects in the 21st century: product, transport and space design.
